

SC3 GLASS SEALANT 100ML

Description:

PROTECTIVE WATER REPELLENT FOR CAR WINDOWS.

SC3 is an innovative sealing system that creates a water and oil repellent coating for windows and windshields; moreover, it reduces dirt deposits and limescale formation, for improved road visibility. SC3 is easy to apply: in a single use, its hydrophobic film is resistant to repeated washing and alcohol-based wiping liquids.

Directions for use:

Decontaminate glass from limescale using DS with the aid of a clay bar, in the most serious cases use a glass polish. In case of car wash waxes, clean with D2. Apply SC3 evenly over the entire dry surface and spread using a microfibre cloth, at first with vertical movements and then with horizontal movements. Wait 1 minute and wipe with a dry microfibre cloth until no more streaks remain. You can reapply another layer after 20 minutes to strengthen the effect. The product is fully activated after 7 hours.

Consumption:

30ml/car

Warnings:

To handle the product follow the precautionary advice on the safety data sheet.

Technical features:

Appearance and colour: amber liquid

Odour: characteristic

Flash point: >23 °C

Relative density: 0,81 g/cm³

Solubility in water: not soluble

Solubility in oil: soluble

Storage:

Unopened and stored at room temperature away from direct sunlight.

Packaging:
